# What is the New Monuments Initiative?

The New Monuments Initiative will aim to **reimagine** and **rebuild** commemorative spaces that celebrate and affirm the historical contributions of the many diverse communities that make up Cincinnati and the United States. And we can't do it without your help! This workbook was created for you to share your thoughts and ideas on how we might tell the untold stories and histories, using art as an entry point.

We will compile all of the data received through our community engagement events, surveys and this workbook, to inform the creation of new monuments in our city!

Stay up to date on the progress of our initiative by following us on social media @artworkscincy and follow our hashtag #CincyNewMonuments.

# Collage Activity

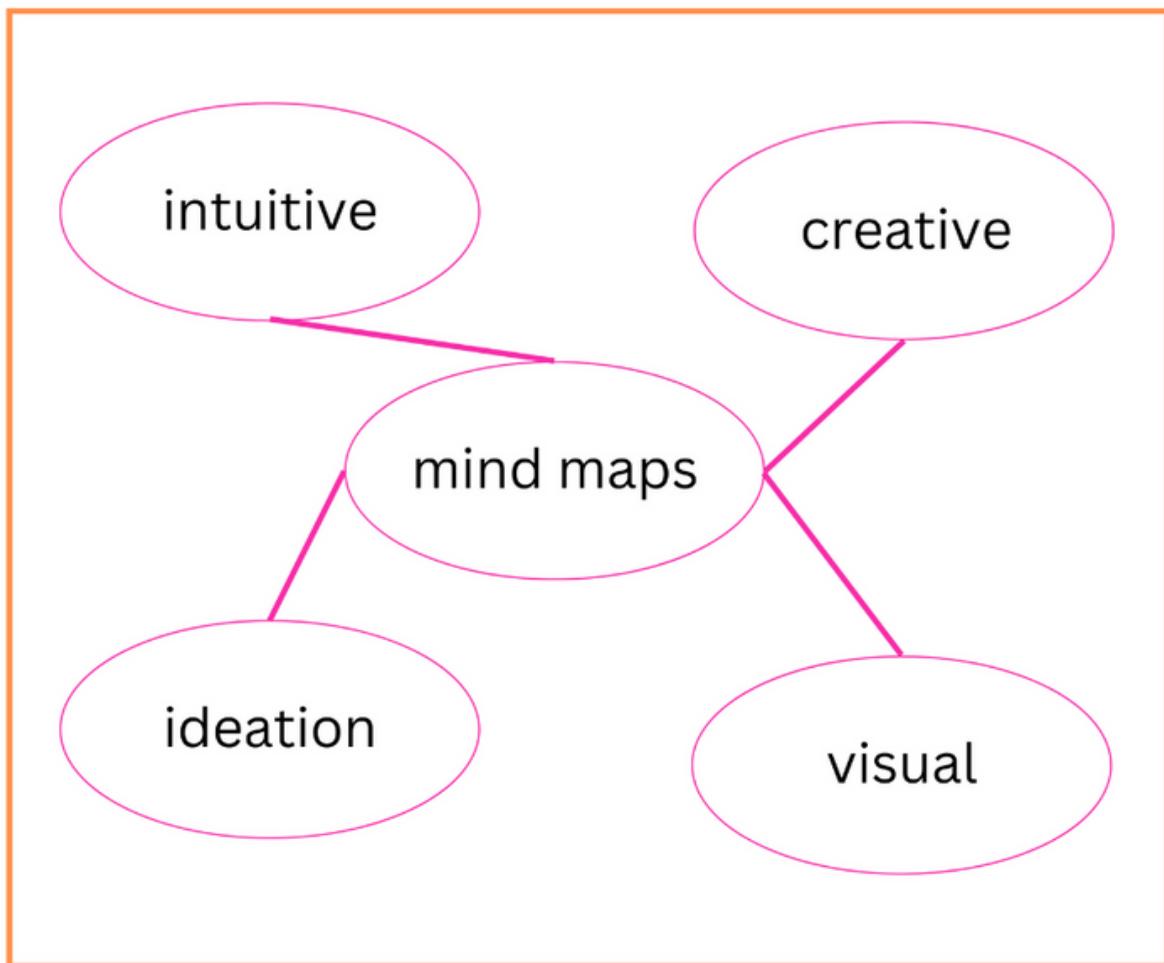

A collage is a piece of art that is made from pasting materials on a surface such as paper or fabric. Materials that can be used on a collage are unlimited but you can use paper, photos, magazine clippings, stickers, etc.

We have many collage activities in this book to encourage creative thinking. Refer to this page when asked to create a collage.

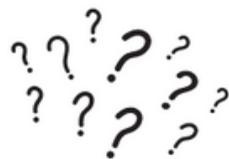

# What is a Mind Map?

A mind map is a way of visually displaying information in a way that shows relationships. We have many mind map activities in this book. Refer to this page when asked to create a mind map.
