

CALL FOR ARTISTS

The Sculpture Center is seeking applicants for its 2023 *Revealed* Early Career Artist Series with an open call for artists. *Revealed* awards artists in the first ten years of their career the opportunity to create work for a solo show opportunity.

Four to six artists are chosen annually by a diverse exhibition committee for one-person exhibitions in a 1,000 or 750 square foot space. The 6-7 week long exhibitions will be held January 2023-January 2024.

The Sculpture Center provides the artist with moderate assistance during installation and de-installation, defined exhibition equipment, fine arts insurance while the artwork is on the premises, all publicity, an exhibition opening, the opportunity to speak at an artist talk and professional photography of the exhibition. Additionally, The Sculpture Center provides a small stipend to assist with travel or materials.

ELIGIBILITY

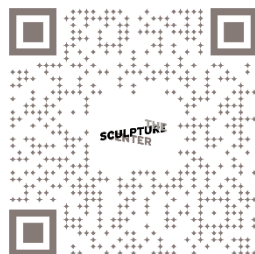

In order to be eligible for The Sculpture Center's *Revealed* Early Career Artist Series, the artist must:

- create stand-alone sculpture, installation, expanded media, relational aesthetics work, or performance art
- have an Ohio, Michigan, Indiana, Kentucky, West Virginia, western Pennsylvania, western New York, or Ontario, Canada connection, by birth, residency, or education, but need not be currently living in the area
- have completed his/her/their schooling (B.A. or M.A.), apprenticeship, or period of equivalent self-taught experience by January 2021
- be no more than ten years from schooling graduation date (no earlier than June 2012) into his/her/their career
- not be attending school at the time of the exhibition. If a sculptor chosen for the *Revealed* Early Career Artist Series enters an art school before the exhibition, he/she/they forfeit the exhibition opportunity, but may reapply, with preference given, upon graduation.

Application images or videos should be of sculpture, installation, other expanded media, etc., that indicate current work. Upon selection for a *Revealed* exhibition, the artist will create a new body of work or significant further development of a current body of work.

Founded in 1989 The Sculpture Center builds a nurturing environment for the creation of sculpture and provides cultural experiences that enhance the understanding of our time. The Sculpture Center seeks to be a regionally and nationally recognized cultural oasis that connects ideas, experiences, and the community.
